

Take Action. Be the Change.

Volunteer at Women's Empowerment!

Teachers & Small Group Facilitators

If you have a specialty that would help our women along their journey to success, consider being a volunteer teacher or small group facilitator.

Job Mentor

We are looking for women who have work experience and one hour per week, through eight weeks, to work one-on-one with a student. Often mentors work with participants through tasks such as resume writing, mock interviews, and self-confidence development.

Event Committees

Work side-by-side with women in our program. Help plan or set-up for special events. Events include graduations, private parties, our annual Gala, and our holiday craft party.

Computer Technician

If you are computer savvy, we need you! We need help refurbishing used computers to give graduates, as well as tech support for staff.

Organizer

If you have a knack for organizing, we have various office tasks that could use your talents.

.....
 Yes, I want to help homeless women change their lives!

Date:

Add me to your mailing list—I want to follow the stories of women in your program.
